1999 Analytical Review DWCCA-1890-ELE

Dear Ms. Nelson:

The Public Service Commission has completed their analytical review of your 1999 annual report. The primary purpose of our analytical review is to detect possible accounting related errors and to identify significant fluctuations from prior year's data, which are not sufficiently explained in the footnotes of your annual report. We have no questions, only the following comments.

It is noted that total kWh used in pumping operations was 34,549 in both the 1998 and 1999 annual reports. This amount should not be carried forward from the previous year, rather it should represent the total each year for the twelve monthly bills for purchased power.

You may consider your review closed. Thank you for your efforts in preparing your 1999 annual report. If you have any questions, please feel free to contact me at (608) 266-3768 or e-mail me at engele@psc.state.wi.us.

Sincerely,

Elaine Engelke Financial Specialist Division of Water, Compliance, and Consumer Affairs
